

## FIDS ANGLU

### Robust Convertible PC!

FIDS Anglu is one of the most flexible and robust convertible computers on the market.

Anglu is designed to get you the opportunity to choose if you need to work in notebook mode with keyboard or tablet mode operation. 2-in-1 computer that is changeable in a few seconds.

The sharp 12.1" dual-mode resistive touch display allows you to either operate with the finger (also with gloves) or the Active Digitizer and have one of the markets absolutely best sunlight readable displays.

With Intel 3rd generation Core i5-3317U dual-core Ivy Bridge processor, Anglu offers you breakthrough performance and increase power efficiency with longer battery life. The integrated, superior connectivity and excellent I/O-ports do FIDS Anglu Convertible PC to a really work-station. Of Course you also can customize your Anglu for your especially needs and purposes.
