AIO 21M

A versatile Medical Computer for crucial Point-Of-Care applications.

The AIO 21M All-In-One PC integrates a 21.5" high contract capacitive touch screen, powerful and energy-efficient Intel® Core™ i-processor, hot-swappable batteries, and optional RFID and smart card readers in a stylish, compact and mountable design.

This VESA-mountable All-In-One computer with its anti-microbial coating is designed for medical and healthcare applications and provides a space saving mobile solution or a desktop when used with the detachable Desktop stand.

When mounted on a mobile medical workstation (Computer on Wheels/COWs or Workstation on Wheels/WOW) the AIO 21M has the additional benefit of eliminating the need to purchase costly medical cart batteries.

Built-in WiFi and Bluetooth connectivity makes data access easy and efficient, making it an ideal solution for health care professionals, helping to optimize workflow, monitor, record and retrieve patient information as well as other point-of care applications.
