

SR13M

The choice for medical & health care professionals!

The SR13M Medical Mobile Tablet has the features that make data access efficient and optimizes staff workflow in hospitals, medical offices, health- and emergency services.

This model is an effective tool to monitor, record and retrieve patient information and surveys. The touch screen has excellent readability, the built-in speakers and microphone with DSP mean good communications. Cameras (2 MP front, 5 MP rear), SmartCard reader, RFID reader and Barcode scanner are all available options.

The Medical Mobile Tablet has rubber damped corners, tempered glass and a reinforced frame that protects against bumps and knocks. Therefore, SR13M means high performance, versatility and efficiency in a slim, durable, bacteria-resistant package!
